

Coffee Lectures

The 13th Series

Tuesday, Wednesday, Thursday, 13.00, HCI G2

Tuesday, 14.11.2017

KnowIt All: A database with 2 million spectra (No. 6)

Are you searching for the IR spectrum of your compound? Would you like to identify your ¹H NMR spectrum using chemical shifts? Do you think your spectrum is a composite of multiple components?

Presenter: Dr. Jozica Dolenc

Wednesday, 15.11.2017

Basics in design (No. 25)

Apply the basic principles of typography and design to your report, brochure, flyer or poster. You will increase its outreach by making it better readable than others.

Presenter: Dr. Oliver Renn

Grow and complete your collection of Coffee Lecture Collector's Cards!

Thursday, 16.11.2017

Mendeley Funding: A funding repository (No. 8)

Find new opportunities for funding your research by using Mendeley, the free reference manager and academic social network. Its new tool, Mendeley Funding, gathers funding opportunities from over 2,000 organizations across the globe in real time.

Presenter: Dr. Jozica Dolenc

Tuesday, 21.11.2017

Science of Synthesis (No. 23)

Learn about Science of Synthesis (SoS), the only chemistry information resource that does not link to papers only but provides descriptions of organic transformations, synthetic methods and experimental procedures including didactic reviews by experts.

Presenter: Dr. Jozica Dolenc

Wednesday, 22.11.2017

Browzine (No. 33)

Do you want to read your favorite papers and browse all journals you like in one place? BrowZine lets you collect and share all your articles on your phone, tablet, or computer. Never download PDFs from publishers' websites again.

Presenter: Dr. Joachim Schnabl

Thursday, 23.11.2017

Is it still safe to use ResearchGate? (No. 14)

ResearchGate is the world's largest scholarly social network, ideal for sharing scientific output and to cooperate. Recently, major

publishers like ACS and Wiley have sued the network for providing copyrighted material.

Presenter: Dr. Oliver Renn

Tuesday, 28.11.2017

Beyond data: SpringerMaterials Interactive (No. 30)

SpringerMaterials, the world's largest database of physical and chemical properties, introduced a set of advanced interactive visualization and analysis tools that help you search and explore the data from its large and diverse collection.

Presenter: Dr. Jozica Dolenc

Wednesday, 29.11.2017

ChemDraw 17 for beginners and professionals (No. 49)

Do you draw molecules for presentations, posters, or publications? We'll introduce you to ChemDraw and how to use it much faster than before.

Presenter: Dr. Joachim Schnabl

Thursday, 30.11.2017

Google's hidden tools (No. 34)

Everyone is using Google. Google is, however, much more than Google or Google Scholar. Maybe you are aware of Google Translate or Google Trends. We are sure you have not heard of the many other hidden Google tools.

Presenter: Dr. Oliver Renn
