

Coffee Lectures

The 15th Series

Tue, Wed, Thu, 13.00, HCI G2

Tuesday, 19.6.2018

h-index and other Research Metrics (No. 3)

You might know the Impact Factor of a journal, and your h-index. But what about altmetrics such as PlumX or other citation-based scores? We give you a quick update on what's important today.

Presenter: Dr. Joachim Schnabl

Wednesday, 20.6.2018

BrowZine (No. 33)

Do you want to read your favorite papers and browse all journals you like in one place? BrowZine lets you collect and share all your journals on your phone, tablet, or computer. Never download PDFs from publishers' websites again.

Presenter: Dr. Joachim Schnabl

Grow and complete your collection of Coffee Lecture Collector's Cards!

Thursday, 21.6.2018

SynOne – new discovery platform for organic synthesis (No. 60)

With *SynOne* you can discover the entire Thieme Chemistry publication portfolio including publications from Science of Synthesis, Pharmaceutical Substances, Synthesis, Synlett and Synfacts.

Presenter: Dr. Jozica Dolenc

Tuesday, 26.6.2018

Goodbye old Reaxys (No. 19)

End of April the old Reaxys platform has retired. Get to know how to construct powerful substance, reaction and literature searches using the new Reaxys interface.

Presenter: Dr. Jozica Dolenc

Wednesday, 27.6.2018

Discover the Student Project House (No. 61)

Did you know there are many 3D printers for you to use at ETH campus Höggerberg, laser cutters, hardware tools and a large space to plan your projects: The Student Project House!

Presenter: Marvin Breuch

Thursday, 28.6.2018

Mercury (No. 31)

If you work with crystal structures of small molecules you almost certainly have come across Mercury to look at the molecules in 3D. We show you how to display crystal packing, make measurements, and generate images of molecules ready for publications.

Presenter: Dr. Joachim Schnabl

Tuesday, 3.7.2018

Rapid prediction of physicochemical properties with ACD/Percepta (No. 18)

Do you need to estimate the octanol-water partition coefficient and the pKa value of your molecule? Would you like to screen several compounds based on predicted physicochemical properties?

Presenter: Dr. Jozica Dolenc

Wednesday, 4.7.2018

Lynda.com (No. 62)

Do you want to get a quick start to learn Photoshop or Illustrator? Or do you need the basics of Python in a crash course tonight? The video courses of Lynda.com provide skills for software, creativity and business taught by experts.

Presenter: Dr. Joachim Schnabl

Thursday, 5.7.2018

Elsevier Researcher Academy, formerly Publishing Campus (No. 39)

Unlock your research potential with the new and free Researcher Academy. Navigate your research from Research Preparation, Writing for Research, Publication Process, Peer Review to Research Communication. Prove your knowledge through the certificates you can earn.

Presenter: Dr. Oliver Renn
