

Coffee Lectures

The 18th Series

Tuesday, Wednesday, Thursday, 13:00, HCI G2

Tuesday, 4.6.2019

Search literature with AI (No. 42)

Qinsight is the first artificial intelligence (AI) big data discovery platform for bio-medical literature with over 40 million documents including patents – and now also full text from Oxford University Press journals. Advanced visual analytics enable deeper understanding – way beyond listing the results.

Presenter: Dr. Oliver Renn

Tuesday, 11.6.2019

Interacting with predatory publishers (No. 41)

Predatory journals are spamming our mailboxes with publication invitations. While these never-ending solicitations are more often than not annoying, they can also be an unsuspected source of fun.

Presenter: Prof. JC Leroux

Wednesday, 12.6.2019

Stay up-to-date with journal eTocs and Google Alerts (No. 4)

Both Google Alerts and eTocs are good tools to receive information on your topics of interests and to stay tuned.

Presenter: Dr. Leo Betschart

Thursday, 13.6.2019

Use the full power of Scopus (No. 17)

Scopus offers many opportunities to retrieve literature expand your searches, to make them more specific and to analyze results in several ways. We'll show you when and where it is worth to do additional clicks.

Presenter: Dr. Oliver Renn

Tuesday, 18.6.2019

No longer guessing with CASSI (No. 20)

CASSI is a free resource that can be used to quickly find journal name abbreviations or to resolve them.

Presenter: Dr. Leo Betschart

Wednesday, 19.6.2019

Kudos (No. 43)

Do you want to spread out words about your paper not only through the journal in which you have published? Kudos helps researchers explain, enrich and share their publications for greater research impact – especially for the D-CHAB members.

Presenter: Dr. Joachim Schnabl

Thursday, 20.6.2019

Beyond data: Springer Materials Interactive (No. 30)

SpringerMaterials, the world's largest database of physical and chemical properties, introduced a set of advanced interactive visualization and analysis tools that help you search and explore the data from its large and diverse collection.

Presenter: Dr. Jozica Dolenc
