

Coffee Lectures

The 2. Series

Tuesday, Wednesday, Thursday, 1.00 pm, HCI G2

No. 10

Tuesday, 4.2.2014

EndNote X7. The most important features.

Today reference management is more than just plugging references into a text.

Presenter: Dr. Ulrich Fischer

No. 11

Wednesday, 5.2.2014

Utopia

Are you reading a publication in PDF format and you would like to click on a term to get direct links to scientific databases? This is possible with the free software Utopia.

Presenter: Dr. Oliver Renn

No. 12

Thursday, 6.2.2014

NIST Chemistry WebBook

Would you like to evaluate experimental thermochemistry data for your reaction? Are you searching for the retention index of your compound for different gas chromatography column types?

Presenter: Dr. Jozica Dolenc

No. 13

Tuesday, 11.2.2014

Visit the Engineering Village

Are you interested in food technology? Would you like to know which are the available e-books on green engineering? Answers can be found in Engineering Village, a powerful search platform in the field of engineering.

Presenter: Dr. Jozica Dolenc

No. 14

Wednesday, 12.2.2014

ResearchGate

ResearchGate is a combination of Facebook, Twitter and LinkedIn for scientists, with 3 million members, > 50 million abstracts and > 1 million full texts. We'll show you the most important features.

Presenter: Dr. Oliver Renn

No. 15

Thursday, 13.2.2014

Use WordPress software for blogs for information management

With WordPress you can set up journal clubs or distribute important information and tasks within a research group. The Info Center uses WordPress for different purposes and some of the live examples.

Presenter: Dr. Oliver Renn

No. 16

Tuesday, 18.2.2014

MedicinesComplete

The platform Medicine Complete hosts 20 databases in the fields of pharmaceutical sciences and chemistry, of which five are licensed. We will show you what you can get out of these databases.

Presenter: Dr. Oliver Renn

No. 17

Wednesday, 19.2.2014

Using the full power of Scopus

Scopus offers many opportunities to expand your searches, to make them more specific and to analyze results in several ways. We'll show you when it is worth to do additional clicks.

Presenter: Dr. Oliver Renn

No. 18

Thursday, 20.2.2014

Rapid Prediction of Physicochemical Properties with ACD/Percepta Software

Do you need to estimate the octanol-water partition coefficient and the pKa value of your molecule? Would you like to screen several compounds based on predicted physicochemical properties to identify the promising candidates for your project? With ACD's PhysChem Profiler this is possible.

Presenter: Dr. Jozica Dolenc
